Beale. This includes transcripts of interviews related to the investigation, and if transcripts are not available, audio files. It also includes information on Mr. Beale's salary, compensation, travel receipts, correspondence, and other documents uncovered in the investigation. I am filing this FOIA request as a member of the news media; I am a reporter for Politico. This designation entitles me to a waiver of fees accumulated during the actual search and review process. If your agency does determine that I should be charged for any part of this request, please contact me before any searches reach an estimate cost of \$25. I previously filed an identical FOIA request, for which my expedite request was granted in order to go over the information with Mr. Beale before his imprisonment. That request was "closed" with only a notice that the investigation was still ongoing, and I understand that is no longer the situation. Thank you!	11/21/2013 2/20/2014

EPA-HQ-2014-009508	Mr. Reed W Super	Super Law Group, LLC	I have attached a letter with a detailed description of the records I seek. This request is for specific records in the possession of the U.S. Environmental Protection Agency pertaining to the final rule entitled National Pollutant Discharge Elimination System's "Final Regulations to Establish Requirements for Cooling Water Intake Structures at Existing Facilities and Amend Requirements at Phase I Facilities (EPA-HQ-OW-2008-0667) that was signed by the Administrator and posted on EPA's website on May 19, 2014, and is expected to be published in the Federal Register shortly.	8/14/2014

EPA-R9-2014-002358	Mr. Tony J Davis	Arizona Daily Star	All records in EPA's possession from July 1, 2013 through Dec. 24, 2013, pertaining to the Rosemont Mine environmental impact statement - whether it be the Draft Rosemont Mine Environmental Impact Statement, the Preliminary Administrative Rosemont Mine Final Environmental Impact Statement or the Final Rosemont Mine Environmental Impact Statement. This would include memos, reports, files, audio not files, and all printed and electronic correspondence records. The correspondence should include both internal EPA correspondence as well as EPA correspondence with other federal agencies, including but not limited to the Forest Service, the National Park Service and the Bureau of Land Management, as well as EPA correspondence with all other parties, including but not limited to non-profit NGOs, Rosemont Copper Co. Augusta Resource Corp., all individuals, all federal officials not in the aforementioned agencies, all other businesses and any other party. I believe this material all should be made public because, notwithstanding any exemptions to FOIA, the U.S. Forest Service has released to me many internal Rosemont Mine documents in its possession over the past two years containing numerous inter and intra-agency emails concerning various aspects of the mine proposal. Above and beyond any precedent such releases may set, I ask EPA to practice maximum transparency on this issue, given the huge and overriding public interest this \$1.2 billion mine project has generated in Southern Arizona. This material shouldn't be covered by Exemption 5, protecting predecisional, inter and intra-agency communication. What I'm seeking pertains to factual and scientific debate over impacts - not to any pending decision about the mine. Scientific issues pertaining to an Environmental Impact Statement are at a minimum one step removed from the decision. If EPA chooses to	1/7/2014

EPA-R3-2015-001069	Mr. Spencer Finch	Langan Engineering and Environmental Services	Langan Engineering and Environmental Services is conducting an update to a Phase I Environmental Site Assessment, on behalf of SunCap Property Group, for a property located at Flint Hill Rd, Upper Merion Township, PA, 19406, and listed as Block 58 Lot 2, Book 4674 in the Upper Merion Township property records. Another address formerly used for the property was 600 Schuylkill River Rd, Upper Merion Township, PA, 19406. It was also commonly known as the Keystone Coke Co. property, as a portion of the former Alan Wood Steel Co. site, and as a secondary site associated with the Crater Resources Inc. Superfund site. We have attached two figures to assist in locating the property, a site location map and a site boundary plan. We would like to respectfully request that your staff review the EPA Region 3's files for any information related to this property which might pose an environmental concern for future development of the property in accordance with Federal CERCLA and state PADEP regulations, and ASTM Standard Practice for Environmental Site Assessments (E 1527-13). These, for example, could include any information about previous fires or spills of hazardous materials on, or in the vicinity of the property; or zoning and building permit applications suggesting changes in use of these properties. We are also contacting the PADEP, Philadelphia Fire Department, Planning Commission, and other code enforcement officials. Should you have any questions at all, please do not hesitate to contact me at sfinch@langan.com	10/31/2014

EPA-R3-2014-000111	Miss Leilani B Aldana		Dear, FOIA Officer I am requesting an opportunity to inspect or obtain copies of water waste treatment facilities in Pennsylvania. It would be ideal for me to be able to receive this information in the form of a map showing all open and currently functioning water waste facilities in Pennsylvania that handle produced water from fracking projects. If possible it would be beneficial to my studies that this information also include the amount of waste water that is being treated every day and how much is being released into the surrounding waterways. Please inform me if the costs for searching for this information exceeds \$5. I would also like to request an educational fee waiver as this information will aid in the understanding of produced water treatment facilities in Pennsylvania and will not be used for any commercial purposes. I will be expecting a response from this agency no later than twenty business days from today (October 7, 2013). If you have any questions regarding my request please feel free to contact me via email at [REDACTED] Thank you very much for your time and have a wonderful day.	10/8/2013

The SEP project I am interested in originated on April 1, 1993, when EPA Region1 first learned about pollution at Mass. Highway Department facilities. Several subsequent investigations confirmed many MHD facilities to be polluted. Litigation followed under CERCLA/RCRA, and a settlement was reached in about a year, which included \$20 million for cleanup costs and \$5 million for SEPs. At the time this was the largest settlement with a state agency under RCRA. The MHD Dudley Street Proposal is what resulted in the cleanup of a polluted former garage at 11 Brook Ave in Roxbury, and redevelopment into the greenhouse that is there today. These documents are instrumental to my Master's thesis, and I would greatly appreciate access to them as soon as possible. I have been in contact with Lisa Papetti at EPA Region 1 (papetti.lisa@epa.gov), and she was kind enough to dig up the Consent Order and Agreement document that is in the above docket (which is why I did not include it in my document list above. However, she could not find these other documents, which is why I am submitting this request. In 2011/2012 the EPA from Region #5 came into the above mentioned facility and did what I am told was a complete inspection which included air, water, waste water, materials, etc. I am looking for any documentation on the above mentioned inspection. Was there an inspection? What were the results of the inspection? I am in the possession of a letter dated January 19, 2012 from a gentleman named John D Myhre, LC-8J Multi-Program Inspector, U.S. EPA, 77 W. Jackson Blvd, Chicago, IL 60604-3590. Essentially the letter is requesting more documentation referencing 25 different Sections (assuming from an inspection document). Persons that may have been involved in the inspection from Glassmaster Controls are Andrew Cook, Wayne Nicolen and Sharon Verile. Glassmaster Controls is an EMS ISO 14001:2004 certified company. Glassmaster Controls recently went through an External Audit for re-certification. During this audit many questions came up about the EPA inspection of which I was unable to answer, because the previous quality manager became ill and I can't find any of the EPA inspection information other than the above mentioned letter. Per the FOIA, on behalf of Glassmaster Controls, I Cindy A. EPA-R9-2014-007473	Mr. Eric Hopson	Basel Action Network	I am looking to attain copies of public records on Dlubak Glass, a recycling company located at 19472 S AVENUE 1 E, YUMA, AZ 85365, (FRS ID# 110039261303). Specifically we are searching for documentation regarding recent soil cleanup efforts that Dlubak was required to undertake as the result of 2009 inspections/violations.. and eventual 2014 consent judgements. Comprehensive records were received from Arizona Department of Environmental Quality in May 2014, and followup contacts were made, but they claim that they have no further information available and that what we seek may be with the EPA. We are trying to gather information on what areas were Dlubak required to cleanup, how were they supposed to clean it up, and did they ever accomplish it. It would be beneficial to simply receive "all available public documents" regarding Dlubak (as we were able to do with AZ DEQ), but I'm not sure if that is an option available from your agency. At the very least, if there are supporting correspondence regarding their violations or cleanup efforts we would appreciate copies of those. If there is any way I can help to reduce the burden of this request please let me know. Thank you for your time.	6/16/2014

EPA-HQ-2014-005860	Debra Fitzgerald		I am hoping you can help me. I need to gather the attached information and I need it rather quickly. We need an annual total of crop production in tons for the following crops: apples, pears, almond pecan, pistachio, walnut, peach, plum, lettuce, broccoli, cabbage, bell pepper, tomato, cucumber, chile pepper, cranberry, and grape. Also, we would a figure for the total export (i.e. fresh apples, dried apples, etc.). The question we are trying to answer is the % of each crop that is exported and where it is exported to. How long would it take to get the information? What is the cost? Please advise at your earliest convenience. Thank you, Debra FitzgeraldD@iskbc.com	4/23/2014

EPA-R3-2014-005706	Miss Ashley Hatfield	Tetra Tech	(1) Please email the following records if possible: We are requesting any records pertaining to The Preserve at Milltown, 500 Meadowlake Drive, Downingtown, PA 19335. Tetra Tech Inc. (Tetra Tech) is conducting a Phase I Environmental Site Assessment (ESA) at the above-mentioned property. This investigation is being conducted in order to identify evidence of any recognized environmental conditions (REC) that may have an adverse environmental impact upon the subject property. Tetra Tech is requesting any records involving environmental issues (such as spills, underground storage tanks, environmental cleanups or hazardous waste generation) that may be on file with the EPA. Any assistance from your office would be greatly appreciated. (2) If all the requested records cannot be emailed to me, please inform me by email of the portions that can be emailed and advise me of the cost for reproducing the remainder of the records requested (\$0.25 per page or actual cost of reproduction). (3) If the requested records cannot be emailed to me due to the volume of records identified in response to my request, please advise me of the actual cost of copying all records onto a CD or floppy disk. (4) If my request is too broad or does not reasonably describe the records, please contact me via email so that I may clarify my request, and when appropriate inform me of the manner in which records are filed, retrieved or generated. If it is necessary to modify my request, and an email response is not preferred, please contact me at the following telephone number: 585-899-6183. If for any reason any portion of my request is denied, please inform me of the reasons for the denial in writing and provide the name, address and email address of the person or body to whom an appeal should be directed. Thank you in advance for spending time on this matter.	4/18/2014

EPA-R10-2014-005615	Brian Lorenz		Dear EPA FOIA Officer, This is a request under the Freedom of Information ACT. I request that copies of the following documents be provided to me: The Certificates of Insurance for all private subcontractors and subconsultants' contracted with the EPA on active Superfund projects in Region 10. This data can either be PDF's of the actual certificates obtained by the EPA for a particular job, or a list of the relevant data contained in the certificate of insurances. For instance: Company Name, Policy Name(s), Effective Date(s), Expiration Date(s), Policy Limits, and Carrier Name(s). I am seeking this information for educational and commercial purposes to understand the demand on insurance carriers to offer higher policy limits on government jobs and to understand when particular policies become effective. I am willing to pay fees for this request up to a maximum of \$25.00. If you estimate that the fees will exceed this limit, please contact me. If you have any questions regarding this request, my phone number is [REDACTED] Sincerely, Brian Lorenz [REDACTED]	4/16/2014

EPA-R8-2014-008764	Mr. John F Lacey	McGarvey, Heberling, Sullivan & Lacey	On April 28, 2014, pursuant to multiple conversations with and the advice of Libby Project Mgr Dania Zinner , I submitted a FOIA request for a digital INDEX regarding all Libby Asbestos Superfund Site, OU8 Documents. See Request EPA-R8-2014-006026. On May 28, 2014, that request was fully granted and I received the OU8 Index in the digital form of one MS Excel spreadsheet, labeled "description." I wish now to request many of the actual documents listed in the OU8 Index that I received on May 28. I am attaching here and referencing as my present formal request a REVISED "description" Index derived from the one that I received on May 28; deleted from the original Index/spreadsheet are the documents that I do NOT wish to obtain. I do wish to receive ALL documents (still) listed on the attached Index. Please consider the submission of this Index as a request that you send me ALL the documents identified therein. As possible, I wish to receive all documents in a digital format. Thank you for your assistance.	7/23/2014

EPA-HQ-2014-008684	Mr. Eric Hann		Ms. Hammitt and Ms. Lemley: I am writing to inform you both that I have submitted my appeal to the FOIA office on July 10, 2104. In the body of the appeal I asked for an email in response indicating that the appeal was received. I have not heard anything back and I ask that you could check and email me back that the appeal was received. This is the appeal I filed two days before the deadline: Dear FOIA Office: I am writing to file an appeal in the EPA's decision regarding my FOIA request number EPA-HQ-2014-000147. I understand the deadline for submission of such appeal is July 12, 2104 and thus this appeal meets the applicable deadline. I ASK THAT I RECEIVE AN EMAIL BACK INDICATING THAT THIS APPEAL HAS BEEN RECEIVED. Since I was one of the three candidates deemed most qualified for the position advertised for the Assistant Special Agent-in-Charge Chicago Area office, I am not accepting and thus appealing the decision that records were lawfully held back under FOIA U.S.C. Section 552 (b)(5) and 9B)(6) In appealing an Exemption 6 withholding, you can 1) contest the agency's assertion that the records at issue constitute personnel and medical files and similar files, argue there is little or no significant privacy interest in the records, and 3) argue that to the extent there is any privacy interest in the records, it is outweighed by the public interest in their release. In personal privacy cases under FOIA, courts essentially balance an individual's privacy right in a record should one be found to exist against the public interest in disclosure of the record, so you should be prepared to argue why the privacy right is minimal (or non-existent) and the public interest in disclosure is strong. - See more at: http://www.rcfp.org/federal-foia-appeals-guide/exemption-6#sthash.UYQ2pjhO.dpuf In appealing an Exemption 6 withholding, you can 1) contest the agency's assertion	7/22/2014

EPA-HQ-2014-003685	Mr. Paul A Winters	Biotechnology Industry Organization	As a result of EPA's RFS2 regulations, companies that have processes that are not approved for biofuel pathway RIN generation under 40 CFR 80.1426 must petition EPA for pathway approval. EPA provides a website that identifies pending petitions by companies as well as determinations, but does not provide the date that such petitions were received by EPA. (http://www.epa.gov/otaq/fuels/renewablefuels/new-pathways/rfs2-pathways-review.htm). On May 16, 2013, you granted Request Tracking Number : EPA-HQ-2013-005111 and provided the submission dates of pathway approval requests. Since that time, you have received 12 additional pathway determination requests, from Valero Welcome, Hankinson Renewable Energy LLC, Agrisoma, Guardian Energy LLC, n/A, N/A, POET Biorefining-Chancellor, Valero - Fort Dodge, Abengoa Bioenergy Netherlands, Heartland Corn Products, Oberon Fuels, and Quad County Corn Processors. In a few of these, determinations have already been made. I respectfully request updated information that associates the names of companies that have submitted petitions to EPA under 40 CFR 80.1416 with the dates those petitions were received by EPA, for pathway petitions not provided in the previous record release.	2/18/2014

EPA-R5-2014-002044	Abigail Wedig		Dear FOIA Coordinator, Under the federal Freedom of Information Act (FOIA), 5 U.S.C. 552, I would like to formally request permission and assistance to conduct a file review of CERCLA and other applicable file records for the Allied Paper, Inc./Portage Creek/Kalamazoo River Superfund Site, located in Allegan and Kalamazoo Counties, Michigan (EPA ID# MID006007306). I am particularly interested in reviewing any files and correspondence concerning the Remedial Investigation/Feasibility Study (RI/FS) for the Kalamazoo River (Operable Unit 5) from 2007 to the present, including but not limited to monthly progress reports, comments and correspondence regarding document submittals, and draft and final reports. I will be requesting copies of all or some of the file records, depending upon the results of my review. Electronic copies are preferred if and when available. Additionally, I am requesting a copy of the most up-to-date comprehensive analytical database for all media (including biological tissues) for the Allied Paper, Inc./Portage Creek/Kalamazoo River Superfund Site. An electronic version of this database, preferably in Microsoft Access or another searchable database format, is requested. If you have any questions or require additional information, please let me know. If expected fees are to exceed \$100, please contact me prior to proceeding, and we can make arrangements for expedited payment. Sincerely, Abigail Wedig	12/19/2013
EPA-HQ-2014-002704	Ms. Marisa A Taylor	McClatchy Newspapers	Pursuant to the Freedom of Information Act, I am requesting access to information maintained by your agency. I would like a copy of the Premium Class Travel reports that your agency is required to file with the General Services Administration for FY 2009, 2010, 2011, 2012, 2013 and if available at time of processing FY 2014. This report documents premium travel by your agency employees. Agencies must submit data or a negative report to GSA annually. If your agency submitted a negative report, I would like a copy of it. If your agency is exempt, your agency is required submit aggregate information. If your agency was exempt and submitted aggregate information, I would like a copy of the aggregate information. In the event that this request results in research or copying, McClatchy Newspapers requests a public interest fee waiver because the material being sought is to be used in a news story. If a fee waiver is not granted, I agree to pay reasonable duplication costs. However, please notify me in advance if you anticipate those fees will exceed \$50. I would prefer an electronic version of these reports. However, if one is not available or providing an electronic version would delay processing, I would accept the report on paper. If any part of this request is not granted, please provide legal justification in writing for each portion of information withheld, and cite the specific exemptions in FOIA law that allows that withholding. We would argue strongly that there is a significant public interest in our reviewing the material being sought. As the nation's third largest newspaper group with 30 dailies and a combined circulation of nearly 3 million, we feel we qualify as acting in the public interest. The cost of travel by government officials is obviously of interest to the American public. As a result, I would like my FOIA to be processed in an expedited manner. EPA-R7-2014-005815	Jack Suntrup		This is a request under the Freedom of Information Act. I request that a copy of the following documents be provided to me: Records of the initial Spill Prevention, Control and Countermeasure plans for each Tier II facility (>55,000 gallon capacity) in the state of Missouri each company submitted to EPA. These SPCC plans need not be the ones currently used by the company. Rather, I'm seeking records of the first SPCC plans that company submitted to the EPA. Records of each of the aforementioned companies' current SPCC plans Records of every facility in Missouri that is categorized as posing "substantial harm" or "significant and substantial harm" to the environment under EPA regulations (Section 112 of Oil Pollution Prevention regulation) Records of the Facility Response Plans necessary for facilities that pose a substantial harm Records of any petroleum company in the United States that has reported a spill to the EPA of more than 1,000 gallons in the last 10 years Of the companies that have reported a spill of more than 1,000 gallons, records of their respective SPCC plans, and, if applicable, their Facility Response Plans In order to help to determine my status to assess fees, you should know that I am a freelance journalist and this request is made as part of news gathering and not for a commercial use. I request a waiver of all fees for this request. Disclosure of the requested information to me is in the public interest because it is likely to contribute significantly to public understanding of the operations or activities of the government and is not primarily in my commercial interest. I'm trying to line up dates between when companies submit their SPCC plans and what follow-up action the EPA takes on these plans. I want to find out how often EPA reverses company claims that they do not pose "substantial harm" to the environment under	4/22/2014

EPA-HQ-2014-003861	Mr. timothy p gardner	reuters	Hello EPA FOIA team: This is a request under the Freedom of Information Act. I am writing to request EPA's internal and external communications and records concerning revisions to the Worker Protection Standard that are not in the public docket, from March 1, 2013 to February 20, 2014. In order to help to determine my status to assess fees, you should know that I am a reporter with Reuters and this request is made as part of news gathering and not for a commercial use. The EPA proposed changes to the Worker Protection Standard for Agricultural Pesticides on Feb 20, 2014. I am requesting a waiver of all fees for this request. Disclosure of the requested information to me is in the public interest because it is likely to contribute significantly to public understanding of the operations or activities of the government and is not primarily in my commercial interest. I also ask that you expedite this request as there is great public interest in this issue during the public comment period. Thank you for your consideration of this request. I look forward to your reply. If you have any questions please call me at 202-898-8360. Sincerely, Tim Timothy Gardner Energy & Environment Correspondent ThomsonReuters 1333 H St, NW Washington, DC 20005 w. 202-898-8360 c. 202-380-8348	2/21/2014

EPA-R6-2014-002716	Ms. Marisa A Taylor	McClatchy Newspapers	Pursuant to the Freedom of Information Act, I am requesting access to information maintained by your agency. I would like a copy of the Premium Class Travel reports that your agency is required to file with the General Services Administration for FY 2009, 2010, 2011, 2012, 2013 and if available at time of processing FY 2014. This report documents premium travel by your agency employees. Agencies must submit data or a negative report to GSA annually. If your agency submitted a negative report, I would like a copy of it. If your agency is exempt, your agency is required submit aggregate information. If your agency was exempt and submitted aggregate information, I would like a copy of the aggregate information. In the event that this request results in research or copying, McClatchy Newspapers requests a public interest fee waiver because the material being sought is to be used in a news story. If a fee waiver is not granted, I agree to pay reasonable duplication costs. However, please notify me in advance if you anticipate those fees will exceed \$50. I would prefer an electronic version of these reports. However, if one is not available or providing an electronic version would delay processing, I would accept the report on paper. If any part of this request is not granted, please provide legal justification in writing for each portion of information withheld, and cite the specific exemptions in FOIA law that allows that withholding. We would argue strongly that there is a significant public interest in our reviewing the material being sought. As the nation's third largest newspaper group with 30 dailies and a combined circulation of nearly 3 million, we feel we qualify as acting in the public interest. The cost of travel by government officials is obviously of interest to the American public. As a result, I would like my FOIA to be processed in an expedited manner. Should this letter prompt questions, feel free to phone me at	1/17/2014

EPA-R4-2014-006610	Ms. Toni Goodrick		I request a full copy of the TRI filed by any form and in any form for the past 6 years by Abarta Gas Plant in Martha, Kentucky. This operation may have filed under the name of 'Abarta, Inc.' or 'Abarta Oil and Gas.' Whether this operation filed a tier I or tier II or Form R, I am uncertain, however my request is for any and all forms filed from 2009 to date with regard to their Toxic Chemicals Release Inventory. Abarta Gas Plant was previously known as the 'Martha Gas Plant.' This request also includes copies for any and all forms that the Martha Oil and Gas Plant filed for Toxics Chemicals Release Inventory, which are commonly referred to as 'TRI.' If no reports have been filed by either enterprise to date, I request a statement that the EPA has none of these forms on file. If either operating company filed at any point prior to 2009, I would appreciate to know which years a Form R or Tier I or Tier II or TRI report was filed. If either enterprise used a form other than Tier I or Tier II or Form R, will you kindly advise me which form they used to report. 'Thank you,' in advance for your cooperation and assistance.	5/19/2014

EPA-HQ-2014-002958	Mr. Daniel M Cohen	student	I have read in detail the letter by the NEPA regarding the Keystone Pipeline written on 4-22-2013 to Mr. Fernandez and Dr. Jones. The DSEIS has denied the request of continuing the pipeline siting EO-2. The article and the NEPA stance is straightforward, however, I have also read numerous articles regarding the job association, lack of importation of oil, monetary values to States and Governments. I can find no updates or information made public after May of 2013 regarding NEPA oversight and denial of the Keystone XL, or the presentation given the President regarding the proposal. Oklahoma is readily engaging in laying the pipeline and I can find no further communication regarding the decisions by NEPA for future lines across the West. Please send me any information the NEPA might have regarding the weight of the States and Peoples vs the Government on this issue. The NEPA has jurisdiction over this issue and as a concerned student and future tax payer I would be grateful for information regarding the denial process conducted by your office. Energy is of the utmost importance to our Nation and Keystone has shown in its planning the goal is to keep the environment safe and clean as well as maintaining the highest standard of workmanship. Thank you for your time and helping me with this very important assignment.	1/27/2014

EPA-R2-2014-005311	Mr. Melvin Estes		On April 4, 2014 I went to the 210 S Denver Ave, Bay Shore, NY 11706 animal shelter to recover 3 beagles that were trained for hunting in my possession. I released said dogs in a designated training area near the pilgrim state psychiatric ward grounds where they followed ordinary protocol, as I notice that my dogs did not return, I did a quick search that yielded nothing. I went to the animal shelter the following day and I was informed that the dogs were there and that they were experiencing difficulty due to ailments I never discovered during the duration of me owning these animals. I then ask for the prompt return of my property and was declined due to fees that was attached and the unavailability of my dogs. I then asked why have they not contacted the address on the collar to report the incident . I want everything in regards to this incident ie... date and time of pick up or turn in, who picked the dogs up and turned them in, all documents relating to whether these animals were in dire need of medical attention [doctors who performed any tasks' medical procedures and medications prescribed and the extent of the treatment and healing process] the rule and regulations to the extent of the handling of TAGGED animals to be included with this request to determine whether there was any negligence on the shelters behalf or whom ever else thats culpable in terms of bringing them to the shelter so the liable party can be brought to justice and the wrong person to be excused.	4/4/2014

EPA-HQ-2014-001172	Charles Cray		I hereby submit a request under the Freedom of Information Act (FOIA) and the agency's implementing regulations (40 CFR Part 2) for documents related to an EPA grant to the Environmental Defense Fund (Federal Award ID number 83442701) from the beginning (2008 or 2009) through 2013. This request is for records associated with all four transactions associated with Award number 83442701 (registered at USAspending.gov). Please include any relevant documents, including but not limited to grant application documents, modifications (including for grant renewals), memos, policy briefs, reports, evaluations, emails, meeting minutes and contracts associated with the grants awarded. This should include documentation described in the Award transactions found at USAspending.gov as, "Surveys, Studies, Research, Investigations, Demonstrations, and Special Purpose Activities Relating to the Clean Air Act." Greenpeace is a non-profit environmental organization acting in the public interest. The requested documents will be made available to the general public free of charge as well interested representatives of the news media/press -- and will not be used for commercial purposes. Therefore, I request that fees be waived as I believe this request is in the public interest. In the event that fees cannot be waived, I would be grateful if you would inform me of the total charges in advance of fulfilling my request. We are willing to receive portions of the documentary record responsive to this request as soon as they are available, in lieu of having to wait much longer for the entire record. I look forward to receiving your response to this request within 20 business days, as the statute requires. Thank you in advance for your anticipated cooperation in this matter. EPA-HQ-2014-004569	Ms. Shermin Haider	ERIS	Hello, I'm looking to obtain a detailed listing of ALL Federal Institutional Controls (ICs) and Engineering Controls (ECs) that are in place in the USA. To further explain, ICs are non-engineered instruments, such as administrative and legal controls, that help minimize the potential for human exposure to contamination and/or protect the integrity of the remedy. Although it is EPA's expectation that treatment or engineering controls will be used to address principal threat wastes and that groundwater will be returned to its beneficial use whenever practicable, ICs play an important role in site remedies because they reduce exposure to contamination by limiting land or resource use and guide human behavior at a site. For instance, zoning restrictions prevent site land uses, like residential uses, that are not consistent with the level of cleanup. ECs encompass a variety of engineered and constructed physical barriers (e.g., soil capping, sub-surface venting systems, mitigation barriers, fences) to contain and/or prevent exposure to contamination on a property. Please note that my request is not site specific but rather I am interested in ALL Federal ICs and ECs data. Attached is an example of what was previously sent for this request. If you could please send the file in either text, Excel or Access format it would be highly appreciated. Thank you.	3/13/2014

The recipient of the grant is Downriver Community Conference and the grant type is a BCRLF. The property number is 60-015-99-0018-000. During the 1950's and 1960's, a private company operated the property as a landfill. Historical information obtained from the Michigan Department of Environmental Quality indicated that the western half of the subject property, approximately 34 acres, was primarily used to dispose solid wastes in the early 1960's. The property was tax-reverted to the State Treasury in 1984 and subsequently to the City of Taylor in 1985. The property remained vacant undeveloped land during this time. The City of Taylor transferred the land to the TCDC in 2005, who subsequently transferred the site to I-94/Beverly LLC, which is wholly owned and operated by the TCDC. The property is currently undeveloped and unused for a significant or obvious purpose. Latitude: 42.2609889 Longitude: -83.30875100000003 ACRES Property ID: 13697</p>	10/7/2013
EPA-R5-2015-000940	Mr. Matthew Brandys		<p>To Whom It May Concern: I am writing to request documents in regards to the ten-acre Chem-Dyne (Hamilton, Ohio) site, which operated as an industrial chemical waste transfer, disposal, and storage facility from 1974-1980 under the Freedom of Information Act. I am requesting the levels of chemical waste removed and recorded by the EPA, which began their cleanup process in 1980. Specifically, I am requesting the levels of groundwater contamination in terms of volatile organic compounds (VOCs) and heavy metals. Additionally, I am requesting quantitative data that pertains to soil and onsite building. EPA # OHD074727793 Regards, Matthew Brandys</p>	10/28/2014

I request the following documents: Copies of all submissions, including reports, records, letters, notes or memoranda (hereinafter "documents") made by the state of Colorado in its request to the Environmental Protection Agency for authority to administer a general permit program under the Clean Water Act. The EPA granted this request on March 3, 1982. Pursuant to 40 C.F.R. Â§ 123.21, that request should contain the following: (1) A letter from the Governor of the State requesting program approval; (2) A complete program description, as required by Â§ 123.22, describing how the State intends to carry out its responsibilities under this part; (3) An Attorney General's statement as required by Â§ 123.23; (4) A Memorandum of Agreement with the Regional Administrator as required by Â§ 123.24; (5) Copies of all applicable State statutes and regulations, including those governing State administrative procedures I request that the information requested here be provided in electronic format, unless a response can be more quickly provided in paper format. Please contact me at (415) 516-0701 or timkline@berkeley.edu if it is necessary to discuss any aspect of my request. If any portion of this request is denied, I request a detailed statement of the reasons for the denial and an index or similar statement of the nature of the documents withheld. To expedite matters, I am willing to discuss specific instances of deletion or other exemption claims in advance of a final decision by EPA. I look forward to hearing from you with the documents requested. Sincerely, Tim Kline 2820 Fulton Berkeley,</p>	10/28/2014

EPA-R10-2014-002720	Ms. Marisa A Taylor	McClatchy Newspapers	Pursuant to the Freedom of Information Act, I am requesting access to information maintained by your agency. I would like a copy of the Premium Class Travel reports that your agency is required to file with the General Services Administration for FY 2009, 2010, 2011, 2012, 2013 and if available at time of processing FY 2014. This report documents premium travel by your agency employees. Agencies must submit data or a negative report to GSA annually. If your agency submitted a negative report, I would like a copy of it. If your agency is exempt, your agency is required submit aggregate information. If your agency was exempt and submitted aggregate information, I would like a copy of the aggregate information. In the event that this request results in research or copying, McClatchy Newspapers requests a public interest fee waiver because the material being sought is to be used in a news story. If a fee waiver is not granted, I agree to pay reasonable duplication costs. However, please notify me in advance if you anticipate those fees will exceed \$50. I would prefer an electronic version of these reports. However, if one is not available or providing an electronic version would delay processing, I would accept the report on paper. If any part of this request is not granted, please provide legal justification in writing for each portion of information withheld, and cite the specific exemptions in FOIA law that allows that withholding. We would argue strongly that there is a significant public interest in our reviewing the material being sought. As the nation's third largest newspaper group with 30 dailies and a combined circulation of nearly 3 million, we feel we qualify as acting in the public interest. The cost of travel by government officials is obviously of interest to the American public. As a result, I would like my FOIA to be processed in an expedited manner. EPA-R8-2014-009088	Eric Blom	The Ranger	Internal emails and other internal communications from or to Shaun L. McGrath, EPA Regional Administrator, regarding the Northern Arapaho and Eastern Shoshone Tribes' Application for Treatment as a State for certain Clean Air Act Provisions and boundary description of the Wind River Indian Reservation, for which the Environmental Protection Agency uses reference number 8P-AR, and regarding an April 2009 request from EPA for a solicitor's opinion on the boundaries of the Wind River Indian Reservation. I would like copies of all such communications from Dec. 1, 2008 to Dec. 31, 2013. Some of these communications might be from or to Hillary C. Tompkins, Department of the Interior Solicitor; Patrice H. Kunesh, Deputy Solicitor of Indian Affairs; and other DOI Solicitor's Office staff; Mark A. Howell, President Howell Consulting Corporation; Darrell O'Neal Sr., Chairman Northern Arapaho Business Council; Darwin St. Clair, Chairman Eastern Shoshone Business Council; and Scott C. Fulton, EPA General Counsel. I would prefer a this information in a digital form that can be emailed or otherwise transmitted via the internet in a .pdf, .doc or something similar. You can email it to eric@dailyranger.com or send me a link to a website where the information is available for download. If that's not possible, a mailed CD containing the information in an accessible digital form would be fairly convenient. And if that's not possible, I could use paper printouts of this information mailed to the above address. As a representative of the news media affiliated with The Daily Ranger newspaper in Riverton, Wyo., I am gathering information on EPA's Dec. 2011 decision to grant Treatment as a State to the Wind River Indian Reservation and consider Riverton, Wyo. a part of the reservation that is of current interest to the public because it has raised a host of jurisdictional concerns. EPA-HQ-2014-009181	Mr. Ryan Malone	Government Accountability Project	The Government Accountability Project (GAP) requests any and all records, including drafts and electronic records as defined by the Act, whether generated or received by the Environmental Protection Agency (EPA) related to the EPA's approval of state pesticide regulations under 7 U.S.C. Â§ 136w-1(a). Section 26 of the Federal Insecticide, Fungicide, and Rodenticide Act ("FIFRA") states, in part: "(a) In general For the purposes of this subchapter, a State shall have primary enforcement responsibility for pesticide use violations during any period for which the Administrator determines that such State" (1) has adopted adequate pesticide use laws and regulations, except that the Administrator may not require a State to have pesticide use laws that are more stringent than this subchapter; (2) has adopted and is implementing adequate procedures for the enforcement of such State laws and regulations; and (3) will keep such records and make such reports showing compliance with paragraphs (1) and (2) of this subsection as the Administrator may require by regulation." This delegation has been codified at 7 USC 136w-1(a). The Government Accountability Project requests that the Environmental Protection Agency furnish each document, record, draft, and release that indicates the EPA's official determination a state has adopted adequate laws and procedures pursuant to 7 USC 136w-1(a). GAP requests such documents and releases applicable to every state that the EPA granted enforcement responsibility. By honoring this request, the EPA will promote greater protection for pesticide workers. This can be concluded with certainty because if workers were aware of how effectively state authorities ensure they are not retaliated against for reporting safety violations, those workers will be more likely to report those violations. In turn, employers are less likely to violate their safety	8/5/2014

EPA-R4-2014-009826	Mrs. Lisa Meoli	Floyd Snider	We are requesting the Notice Letters EPA sent to six identified PRPs as specified in the 1988 ROD for the Chemtronics Site, located at 180 Old Bee Tree Road in Swannanoa, N.C. The six PRPs are not named in the ROD, so we are therefore requesting the actual notice letters. Here is the quoted statement from the EPA 1988 ROD: "The Chemtronics Site was included on the first NPL in December 1982, and EPA assumed lead responsibility for the Site at that time. The Site has been operated as an industrial facility since 1952. An EPA contractor completed a Potentially Responsible Party (PRP) search in November 1983. Notice Letters were sent to the six identified PRPs. Three of the PRPs were found to be viable and EPA initiated negotiations with these three PRPs. Negotiations began in June 1984 and were concluded in October 1985 with two of the PRPs, Chemtronics, Inc. and Northrop Corporation, signing an Administrative Order of Consent to perform an RI/FS. The third PRP, Hoechst Celanese Corporation declined to participate in the RI/FS process." Thanks very much for your assistance.	8/26/2014

EPA-R8-2015-000693	Mr. Philip M Brodeen	BlueDog, Paulson, & Small PLLP	This is a request under the Freedom of Information Act, 5 U.S.C. Â§552, made by the Sisseton Wahpeton Oyate of the Lake Traverse Reservation (â€œSWOâ€œ) I request that the following information be provided to me: All documents, agency records, and communications related to the Clean Water Act, permitting, exemptions, or regulatory actions for projects involving an individual named Merlyn Drake, including any organization organized or controlled by Merlyn Drake, for his activities on Enemy Swim Lake in South Dakota. Such information shall include but not be limited to: any agency records pertaining to any associated waterways, inlets, and wetlands around Enemy Swim Lake. We seek agency records from 1995 to the present time. In order to help determine my status for the purpose of assessing fees, my firm serves as general legal counsel for the SWO, a federally-recognized Indian Tribe and this request is made for governmental purposes. I am willing to pay fees for this request up to a maximum of \$200.00. If you estimate that the fees will exceed this limit, please inform me first. I respectfully request that this FOIA request be expedited. A water quality test conducted by a South Dakota State University professor determined that there is a dead zone in Enemy Swim Lake due to Mr. Drake's activities. The Tribe and its members own a significant amount of land bordering Enemy Swim Lake. Failure to obtain the requested records on an expedited basis could reasonably be expected to pose an imminent threat to the physical safety of Tribal members and others at Enemy Swim Lake. If you deny all or any part of this request, please cite each specific exemption you think justified withholding of information and notify me of the appeal procedures available under law. If you have any questions pertaining to my FOIA request, you may email me at pmb@bpslawfirm.com or call me at 952-893-1813	10/21/2014

EPA-R9-2015-000346	Eric Cole	Upper SE Connector Community Coalition	The Sacramento Office of the EPA has been actively involved with the Corps of Engineers in Reno (and elsewhere I assume) in reviewing a permit request from the Reno Transit District (RTC). The permit request is for Phase 2 of a proposed roadway commonly called the SE Connector From Sparks to south Reno. Our non profit coalition is requesting copies of all correspondence to and from EPA (to any person or organization) on this subject from June 1, 2014 to the current date. If it assists EPA, I can come to Sacramento to review the correspondence prior to making copies so we can limit the copying to only the documents we feel we need.	10/9/2014

EPA-R3-2014-002762	Jeremy Hatfield	Terracon	We, Terracon Consultants Inc. (geotechnical/environmental engineers), are currently conducting a Phase I Environmental Site Assessment (ESA) of the 12 Story Office Bldg. located between 700 13th St., NW, Washington DC. Part of the Phase I required us to contact local governmental agencies to check for any available knowledge or records related to potential environmental-related concerns or complaints related to hazardous substances or petroleum products on or near the site. Would your office happen to have any knowledge of response/spill record, etc. that may provide an indication of environmental concern on or near that property (700 13th St., NW, Washington DC.)? Thank you, Jeremy Hatfield	1/21/2014
EPA-HQ-2014-002449	Michael Bolan	Eco Scientific, Inc	I am requesting a list of all municipal and industrial wastewater treatment plants that are having problems meeting permit limits due to ammonia, nitrite, suspended solids (due to algae growth). The type of treatment plants I am especially interested in are aerated and non-aerated lagoon type treatment plants of any size that may need assistance in meeting permit limits. I am interested in all states within the system. I have requested this information in the past successfully and very much appreciate your assistance. In the past I have received the information in Excel format and again request any information you currently have for all treatment plants in the system that meet the above criteria. I believe in the past I received information put together by Emery Harrison, Jernell Battle, Maya Lee Newman, and Supervisor Sharon Gonder. Thank you for your previous help. Please let me know if there are more states and regions within the system. In the past I recall only a few states had extensive lists of WWTPs having permit issues. Thanks again for your help in enabling my company, Eco Scientific, Inc. to contact these facilities in an attempt to improve the effluent quality of their discharges.	1/9/2014

EPA-R2-2014-002712	Ms. Marisa A Taylor	McClatchy Newspapers	Pursuant to the Freedom of Information Act, I am requesting access to information maintained by your agency. I would like a copy of the Premium Class Travel reports that your agency is required to file with the General Services Administration for FY 2009, 2010, 2011, 2012, 2013 and if available at time of processing FY 2014. This report documents premium travel by your agency employees. Agencies must submit data or a negative report to GSA annually. If your agency submitted a negative report, I would like a copy of it. If your agency is exempt, your agency is required submit aggregate information. If your agency was exempt and submitted aggregate information, I would like a copy of the aggregate information. In the event that this request results in research or copying, McClatchy Newspapers requests a public interest fee waiver because the material being sought is to be used in a news story. If a fee waiver is not granted, I agree to pay reasonable duplication costs. However, please notify me in advance if you anticipate those fees will exceed \$50. I would prefer an electronic version of these reports. However, if one is not available or providing an electronic version would delay processing, I would accept the report on paper. If any part of this request is not granted, please provide legal justification in writing for each portion of information withheld, and cite the specific exemptions in FOIA law that allows that withholding. We would argue strongly that there is a significant public interest in our reviewing the material being sought. As the nation's third largest newspaper group with 30 dailies and a combined circulation of nearly 3 million, we feel we qualify as acting in the public interest. The cost of travel by government officials is obviously of interest to the American public. As a result, I would like my FOIA to be processed in an expedited manner. EPA-HQ-2014-008041	Mr. Amar A Nayak	Robert Gordon University	<p>Hello, I am a PhD student from Robert Gordon University, Scotland, and my research topic is estimating uncertainty in existing methodology in GHG emission for Iron and steel sector of USA. Research Scope and Objective: This research will study the existing methodology for estimating GHG emission of Iron and steel sector in USA. In the process, research will highlight the shortcomings and drawbacks in the methodology and finally come with alternative methodology. It is observed that the existing methodology suggested by UNFCCC (production based) has many shortcomings as it do not cover the whole life cycle of the product. This aspect ignores majority of the emissions caused due to imports. Alternative methodology is consumption based which accounts all emissions taking place within and outside the country and both upstream and down stream emission. More descriptions about the methodology and anomalies are described in the appendix (FOI-US) attached. Questions: 1. Are the organizations (EPA, Energy department and ministers) involved in GHGI aware about the serious short comings of the production or region based approach? 2. If yes, then what steps organizations are taking to make a transition in methodology? 3. Has USA highlighted this anomaly in methodology to UNFCCC, IPCC and other governing bodies to incorporate more robust and modern methodology instead of using something outdated or something that gives false result. 4. It is also observed that most of the GHG inventory data and especially Iron and steel sector is out sourced to Ricardo AEA. It is difficult to get actual calculation of emission estimation by Ricardo AEA. Is it possible to get hold of those calculations done by Ricardo AEA with the detail of input data used?</p>	7/2/2014

EPA-HQ-2014-010159	Austin Schutz		My freedom of information request is to obtain the emissions results of a vehicle that the EPA tested in 1979 or 1980. It was generally referred to as the "Moody mobile" and was a modified Mercury Capri that ran on a Perkins Diesel engine. An overview of the vehicle can be found here: http://newspaperarchive.com/us/indiana/kokomo/kokomo-tribune/1979/05-24/page-29 . When searching for the EPA results of his vehicle the only information available is that it "failed" the EPA testing (otherwise it would have gone into a limited production run of 2,000-10,000 vehicles based on various sources). I would like to know in what categories of emissions testing Ralph Moody's car failed in. I am looking for the exact test results for this vehicle. Having this information would dispel many myths about what happened to this vehicle and why it never made it into production. There are many rumors that the EPA was pressured into failing the vehicle in emissions testing due to pressure from Oil companies.	9/8/2014

EPA-R9-2014-006222	Mr. Charles Halvorson	Columbia University	Hello, I am a PhD candidate in History at Columbia University. I'm currently researching a dissertation on the history of environmental regulation and I'm interested in the role that Region 9 played in the development of tradable emission permits in the 1970s and 1980s. From other histories of those tradable emissions, I know that the San Francisco Bay Area was a key site in the creation of the tradable emissions, which originally were known as emissions "offsets," "offsetting," "banking," "bubbling," "netting" and "offset trading." I know that Paul De Falco, of the San Francisco Regional Office, passed the Offset Interpretative Ruling for California in 1976. I am interested in any records from the 1970s or 1980s that the Region 9 office has regarding the creation and development of those "emissions rights." Kerry Shoji of the Region 9 office instructed me to make a FOIA request to discover what material the Region 9 office may have related to these tradable emissions rights. These records would have likely been generated in the process of administering air quality regulations. I am thus interested in the role that other regulators, like the Bay Area Air Pollution Control District may have played in devising or implementing the regulatory innovation. If the number of records is too great to viably copy and transmit them, I can arrange a research visit to examine the records in person. Thank you! Charles	5/6/2014

EPA-R9-2014-007167	Dan Clarke		Summary of hardcopy FOIA request sent by mail. The US EPA provided oversight on an investigation of MGP residue in the Marina district of SF, listed below as A, and approved the resolution of that investigation. The US EPA may have been involved with two other investigations, listed below as B and C, in the area. I am requesting all published or unpublished correspondence, reports, notes, test results, and the like concerning known or suspected MGP residues on land or in water from the BCH MGP, NOB MGP, and FIL MGP which might pose a threat to health or the environment, including those associated with A through H below. If a record was not received at the time of the project, please specify when the U. S. EPA received it. A. Soil sampling and other investigations into MGP residues on an unknown number of properties in the Marina district of SF conducted by PG&E circa 1986. This work was performed under the oversight of the US EPA and the California state EPA (DTSC, and possibly SFBRWQCB, were involved). B. Soil and groundwater testing of MGP residues on the Marina Substation conducted by PG&E circa 1991. C. Soil and groundwater testing of MGP residues on the Gaslight Building conducted circa 1997. This work was performed under the oversight SFBRWQCB. D. Investigations of MGP residues in the sediment and/or water in Gashouse Cove circa 1994, 1995, 1997, 1998, and 2000 conducted on behalf of CCSF. The investigations led to a 2001 federal lawsuit by CCSF against PG&E. There was a related investigation circa 2008 of MGP residues in the soils along the shoreline of Gashouse Cove that might be impacting sediment and/or water in Gashouse Cove. E. Investigations of MGP residue in the waters of SF Bay. F. Investigations of MGP residue in the groundwater of SF. G. Investigations of MGP residue in other navigable waters of CA. H. Investigations of MGP residue in other groundwater	6/5/2014

EPA-R2-2014-005356	Ms. Lindsay Glassman	AEI Consultants	According to a regulatory database, the site identified as Keene-Stonco and Stonco Lighting at 2345 Vauxhall Road in Union, New Jersey is site is identified as a CERCLIS site under Site ID 0206414. The EPAID is NJD053513644. This building is currently vacant; however, former operations included metal parts coating and painting for the lighting industry for 40 years. Environmental assessments at a condominium development downgradient indicated the discovery of TCE in soil and groundwater that was attributed to this site's former operations. EPA-level Discovery, Screening, Preliminary Assessment, and Site Investigation were completed there in 2010-2011. A site investigation is being recommended was reported in the regulatory database, to evaluate HRS scoring. Based on this information, AEI seeks relevant information maintained by the EPA regarding site remediation and/or groundwater plume mapping at this facility. AEI is conducting an environmental assessment at a nearby property and would like to determine if, based on this site's proximity to the subject property and the previously identified presence of migratory TCE at other sites in the vicinity, vapor encroachment may be a concern to our property.	4/7/2014

EPA-R5-2014-006437	Steve Garbacz	The Daily Journal	Hi, I'm a reporter with the Daily Journal newspaper in Franklin, Ind. and I'm trying to get some information about an EPA violation against our county: Johnson County, Indiana, has been in some ongoing negotiations with EPA about a fine or penalty for a past violation. From the limited details I've been able to gather it sounds like it might have been a Clean Water Act violation for some work that was performed by the Johnson County Surveyor's Office in Tracy Ditch. The incident may have happened 2.5 to 3 years ago or longer. It sounded like there was some work done but the county didn't get proper permits and then a complaint was made. I'm assuming there were some papers that were filed and sent to the county regarding what the violation was, remediation, information on fines/penalties, etc. I'd like to get that information. Email would be preferable format if possible. My email is sgarbacz@dailyjournal.net My phone number is 317-736-2719 if you have any questions.	5/13/2014

EPA-R4-2014-006008	Charles Halvorson		Dear Ms. Louann Gross, Thank you for your help this morning on the phone. I am researching a dissertation on environmental regulation in the 1970s and 1980s. Kentucky has emerged as one state that I'm interested in due to its participation in the Ohio River Basin Energy Study (ORBES) that was conducted from 1976 to 1980. I'm curious to know whether the Region 4 records contain any material related to that study. In addition, I'm interested in administrative records from the 1970s and 1980s that deal with particular electric power utilities or industrial manufacturers as well as any sort of cost-benefit analysis applied to environmental regulation. I know that this second set of records may not be easily identifiable and so I would greatly appreciate a general description of Region 4's holdings from that period - what sort of records exist from the 1970s and 80s? If there are ample records related to my interests, I will plan on visiting the Atlanta offices. If the records are only a few, I would greatly appreciate your help in obtaining copies, for which I will of course pay. Thank you in advance for the help you may be able to provide.	4/28/2014

While doing research for a school project, I came across a Penalty in the amount of \$477,500.00 issued to Kansas DOT by your Region 7. I am kindly requesting to see how the penalty damages were assessed and as to how the settlement amount came about. How are such penalties or fines are to be calculated and what procedures are used for such calculations. I would hope to get a response from you in a PDF format via e-mail if at all possible. Please be advise that this FOIA is to be used only for instructional purposes and is part of a research which I'm doing for school. Sincerely, Frank Tonuzi Student Florida Coastal School of Law</p>	2/24/2014

EPA-R4-2014-003039	Russell Randle	Patton Boggs, LLP	This electronic letter is a request for documents pursuant to the Freedom of Information Act, 5 U.S.C. Â§ 552, and EPA Regulations, 40 C.F.R. Part 2, as well as section 308(b) of the Clean Water Act, 33 U.S.C. Â§ 1318(b), which provides that effluent data and information needed to determine compliance with effluent standards, and which effluent standards apply, cannot be claimed to be confidential business information. The documents requested are as follows, based on e-mails (attached) provided in response to prior FOIA requests. 1. On or about November 16, 2012, representatives of EPA Region 4 and EPA headquarters conducted a conference call with representatives of BASF, the owner one of the largest direct dischargers of water pollutants in the state of Georgia, BASF's Attapulugus fertilizer and catalyst manufacturing plant, concerning the applicable technology-based effluent limitations for that plant. An e-mail (attached) entitled "result of conf call w/BASF and HQ to discuss TBEL applicability of nutrients," from Marshall Hyatt of EPA Region 4 states: BASF provided a write-up and verbally explained that ammonium nitrate is purchased, used to remove sodium from clay, slightly diluted with other waste streams, and then re-concentrated and sold as fertilizer. This operation and process regenerates the ammonium nitrate feedstock, rather than manufacturing or creating it. BASF indicated that very little wastewater is generated from this activity. Based on these clarifications, HQ and I are comfortable that the fertilizer effluent guideline does not apply and that due to the very small amount of wastewater generated, that there is no need for BPJ-based limits. I have informed GA and BASF of our conclusion. Based on this e-mail, the following documents are requested: a. BASF's "write-up" referred to in the first line of the e-mail b. All notes from EPA personnel who participated in this	1/27/2014

EPA-R5-2014-003160	Mr. Kenneth A McRowe	AMEC	We are interested in reviewing all files (but especially RCRA and CERCLA; and any concerning spills or releases) associated with the steel mill on Zug Island. In the past this mill was owned by GREAT LAKES STEEL, at 1300 Zug Island Road and we know it had an ERNS file number of 96501604, and a EPA ID: M1R000015420 then, those are probably not the only ones associated with the site historically. It has since changed hands and is owned by US Steel. File review is complicated because while the steel mill is located at 1300 Zug Island Road, Detroit MI, it appears to generally be reported as part of their main steel operations located at 1 Quality Drive in Ecorse, MI just downriver of the site, so to get information on the Zug Island operations, we will probably need a search of both addresses.	1/30/2014

EPA-R2-2014-002953	Mr. Erin Tennant		I seek printed copies of correspondence, including but not limited to letters and emails, between the EPA and any parties it has deemed responsible for paying for the cleanup of the Gowanus Canal Superfund Site in Brooklyn, New York, including National Grid, the City of New York and any other private or federal government entities. The scope of the correspondence to which I seek access shall cover: (i) notifications from the EPA to the polluting parties about their responsibilities in the cleanup process, including any estimates or demands as to the monetary contribution each party should make; (ii) any subsequent responses from those polluting parties; and (iii) any continued negotiations or disputes between the EPA and any polluting parties about how much they should pay or what other contribution they should make to clean up Gowanus Canal.	1/27/2014
EPA-R6-2014-002949	Michael Wagner		This is a request under the Freedom of Information Act for a copy of ALL information on Super-Freeze LLC.	1/27/2014

EPA-R4-2014-002714	Ms. Marisa A Taylor	McClatchy Newspapers	Pursuant to the Freedom of Information Act, I am requesting access to information maintained by your agency. I would like a copy of the Premium Class Travel reports that your agency is required to file with the General Services Administration for FY 2009, 2010, 2011, 2012, 2013 and if available at time of processing FY 2014. This report documents premium travel by your agency employees. Agencies must submit data or a negative report to GSA annually. If your agency submitted a negative report, I would like a copy of it. If your agency is exempt, your agency is required submit aggregate information. If your agency was exempt and submitted aggregate information, I would like a copy of the aggregate information. In the event that this request results in research or copying, McClatchy Newspapers requests a public interest fee waiver because the material being sought is to be used in a news story. If a fee waiver is not granted, I agree to pay reasonable duplication costs. However, please notify me in advance if you anticipate those fees will exceed \$50. I would prefer an electronic version of these reports. However, if one is not available or providing an electronic version would delay processing, I would accept the report on paper. If any part of this request is not granted, please provide legal justification in writing for each portion of information withheld, and cite the specific exemptions in FOIA law that allows that withholding. We would argue strongly that there is a significant public interest in our reviewing the material being sought. As the nation's third largest newspaper group with 30 dailies and a combined circulation of nearly 3 million, we feel we qualify as acting in the public interest. The cost of travel by government officials is obviously of interest to the American public. As a result, I would like my FOIA to be processed in an expedited manner. Should this letter prompt questions, feel free to phone me at	1/17/2014

EPA-R9-2014-003898	Mr. Michael Loewke		Hello, I'm trying to verify some violations for the Keller Canyon Landfill in Pittsburg (US EPA FRS ID: 110001163053). The EPA ECHO page here (http://echo.epa.gov/detailed_facility_report?fid=110001163053&redirect=echo) states that (i have also attached a screenshot of this webpage to this request): 1. The Current Compliance Status is "significant violation". 2. The Facility Level Status is "HPV" and has been in non-compliance for the past 12 quarters. 3. One informal, and two formal actions have been issues in the past 5 years. If you could provide some sort of verification (or further information on the actual violations) it would be much appreciated. Copies of documents related to the compliance status and/or facility level status, and those related to the informal and formal actions during the previous 5 years would be appreciated. If you have any questions, or need further clarification, please feel free to contact me via email at mike@loewke.com , or by phone at (925) 212-9174. Thanks! EPA-R4-2014-008665	Mr. Humberto K Muray	Parker Trutec Mexicana	Our company in Mexico, Parker-Trutec Mexicana, is a subsidiary of an American Company named Parker Trutec Incorporated (formerly Trutec Industries Inc.). An affiliate of the Group, MMI Trutec Inc. (currently Parker Trutec -MMI Tennessee), located at 134 River Bend Drive, Sevierville, TN, 37876, was closed by the EPA several years ago for a violation regarding cyanides. We think that the resolutions that were set by the EPA for this case must apply to the subsidiary in Mexico, even though the company is not located in the USA, considering that we are a subsidiary of a USA company, and that the President of the Group, Mr. William Mark Moore, is also the President of this subsidiary in Mexico, and provided that he was found responsible for the said violation. Since almost one year ago, I have requested to our headquarters for a copy of the resolution from the EPA to close the MMI Trutec location, but our corporate has been reluctant to provide it. Therefore, this request is related to obtaining a copy of this resolution. Thank you very much. Additionally, I would like to inform you that this is the first time that I tried to create an account with the FOIA. However, while I was creating it, I was informed that my email addresses, hmuray@yahoo.com and h.muray@parkertrutec.com, had already been used to open other accounts. How can I confirm if this is correct and that somebody else is using my accounts w/o my consent? I appreciate your kind assistance in advanced. Humberto Kenji Muray	7/21/2014

EPA-R5-2014-003910	Mr. David McCann		I hope you can help as I attempt to understand the EPA requirements for Akron to improve the water quality of the Cuyahoga River and how that impacts taxpayers. The issue appears to be a situation of untreated sewerage that overflows into storm sewers. (After the terrential rains of last July - a city official was quoted as saying there had been no storm water overflow - which I took as a good sign of the environmental upgrades working) And the city response has been to provide for storm sewer storage vaults to contain the untreated water until such time as the Botzum Water Treatment Plant can handle the processing. More significantly - can you give me a sense of the state of the river (what pollutants?) when it enters the City of Akron geographical area - and when it leaves the geographical area downstream from the Botzum Sewerage Treatment Plant (what pollutants?). But, now, homeowners will find themselves with higher bills to satisfy the EPA requirements - a mandate from the federal court judge for this area. I know we want the Cuyahoga River to be as clean as possible before it empties into Lake Eire - but for those us in Akron - we are being bombarded with too much information which seems to be skirting the issue at hand - what are expectations of the EPA for the cleanliness of the river - where are we now - ; and what are the expectations of the EPA? Thank you for your help. Sincerely, David David McCann, CPM >boniface.fulda@gmail.com<mailto:boniface.fulda@gmail.com>	2/10/2014

EPA-R5-2014-009469	Bradley P Colborn	Anderson, Agostino & Keller, P.C.	I am requesting information in relation to records and testing data for the following EPA Super Fund Site: the Conrail Rail Yard Site, EPA ID # IND000715490. A review of some of the public documents and records of decision in relation to the site reference water testing at wells and residential wells within the vicinity of the site from approximately 1984 through 1994, however these testing reports are only referenced and the raw data supporting them is not included. I am requesting access to the testing data for wells in the area, as well as the actual testing reports produced by several independent firms and government agencies as the water was tested and evaluated over the course of time. This includes, specifically, any documents and reports produced when the EPA's Technical Assistance Team was sent out to the area for emergency testing and other related actions in 1986. Also, site assessments were produced during the referenced time frames in relation to residential and business well water testing in the areas affected by the groundwater contamination, ultimately leading most of the are to be ordered to be switched onto Elkhart City water. In particular, I am interested in determining if any testing results exist within any of the documentation obtained by the EPA in relation to the testing of a residential well located at the address of 56775 Best Avenue, Elkhart, Indiana 46516, as well as the address located at 56570 Shore Avenue, Elkhart, Indiana 46516. I know that at some point in time between 1986 and 1988 that these addresses were tested as a part of the EPA's investigation and clean up of the area, and that at some point in time following this testing the addresses were ordered to be switched over to Elkhart City water from their residential wells. Any orders, reports, or testing data or documents related to this testing, evaluation, and remediation orders is requested.	8/13/2014

EPA-R2-2014-009072	Mr. David P Barry		We are trying to chronicle the history of the New Jersey Statewide Solid Waste Management Plan (the 1988 Plan) adopted in response to the EPA guidelines in 40 CFR Part 256 et seq. EPA proposed approving the 1988 plan under Subtitle D of RCRA in the Federal Register at 53 Fed. Reg. 40243-01, Oct. 14, 1988. A document titled the New Jersey Statewide Solid Waste Management Plan dated 2006 is available on the NJDEP website and refers to a 1993 NJ Solid Waste Plan. We are looking for answers to the following questions and the documents identified: 1. Was the 1988 Plan the first solid waste plan prepared by NJDEP in response to the EPA solid waste guidelines and submitted to EPA for approval? Did EPA approve it after the public notice? And if so, was EPA's approval published in the Federal Register and, if so, when? If it was not published in the Federal Register, is there a document which confirms the EPA approval and how would we obtain a copy? 2. Is the 1993 Plan referenced in the 2006 Plan an amendment to the 1988 Plan? Who would have a copy of the 1993 Plan and how could we obtain a copy? Was the 1993 Plan submitted to EPA for approval and did EPA approve it? If so, was EPA's approval published in the Federal Register and, if so, when? If it was not published in the Federal Register, is there a document which confirms the EPA approval and how would we obtain a copy? 3. Is the 2006 Plan an amendment to the 1988 Plan or the 1993 Plan? Did EPA approve or propose to approve this plan? Was approval published in the Federal Register or elsewhere? How do we obtain a copy of the approval? 4. Were there any other Plan amendments from 1988 to the present? If so when were they made and how do we obtain copies? Thank you very much for your time and assistance on our search.	8/1/2014

The building was for sale and our buyer, requesting an SBA loan, was given a detailed copy of the Phase One records required by the SBA for a small business loan. GKN Aerospace Fort Worth, leasing the property at 3220 South Grove Street, Forth Worth, TX 76110, TXDOS1376192 was listed in the Phase One report and is listed that the property is listed with the State as having an active Air Permit and an active Industrial Hazardous Waste permit. These permits were opened by Aerospace Composite Technologies. Also, the TCEO has a record that a complain was filed in 2007 stating that the occupants, GKN Aerospace, for discharge/disposal of wastes onto surface soils and disposing of the process waste into the dumpsters. While this is just one case in which GKN Aerospace Technologies was cited, the property on 3220 South Grove Street, located in Fort Worth, TX 76110 is listed on a Cerclis list and we are unable to access that list as we have been told that lists are being gathered and synchronized. Please give us as much information on this property and the tenants involved in any EPA complaints and any remedial actions that might have taken place. Thank you. Paula H. Storey	6/11/2014

EPA-R4-2014-003922	Ben Bradford	WFAE	Pursuant to the federal Freedom of Information Act, 5 U.S.C. Â§ 552, I request access to and copies of Emails containing the words "Clean Water Management Trust Fund," or "Gossage," or "Albemarle-Pamlico" sent from/to EPA staff or staff at the North Carolina Department of Environment and Natural Resources between October 2013 and December 2013. I would like to receive the information as a PDF. As a representative of the news media I am only required to pay for the direct cost of duplication after the first 100 pages. Through this request, I am gathering information on the appointment of North Carolina public officials that is of current interest to the public because it will shed light on the competence and qualifications of public stewards. This information is being sought on behalf of WFAE for dissemination to the general public. Please waive any applicable fees. Release of the information is in the public interest because it will contribute significantly to public understanding of government operations and activities. If my request is denied in whole or part, I ask that you justify all deletions by reference to specific exemptions of the act. I will also expect you to release all segregable portions of otherwise exempt material. I, of course, reserve the right to appeal your decision to withhold any information or to deny a waiver of fees. As I am making this request as a journalist and this information is of timely value, I would appreciate your communicating with me by telephone, rather than by mail, if you have questions regarding this request. Please provide expedited processing of this request which concerns a matter of urgency. As a reporter, I am primarily engaged in disseminating information. EPA-R7-2014-010376	Mrs. Tanja Heinen		TO: MIKE GIERYIC, former assistant regional counsel, USEPA, Kansas City, KS I live in Kansas City and noticed a nice piece of property for sale in Platte County last week, drove up there, looked at it and then started to do my research as the property is for sale and as a foreclosure. I believe you would be an excellent resource for me about this property, which is advertised for sale at 19105 Humphreys Rd., Platte City, Missouri BUT the address you may know from your EPA work is slightly different (19015), (perhaps the listing agent's way to skirt the obvious issues with the property). I am suspect. If you would be so kind to help me navigate the potential liability associated with this property and any action the EPA is still considering on the property, that would be very helpful. I care about the environment and found the property to be desirable mostly due to its elevation and the views from such a vantage point, but after reading through No. SC87691 in the Supreme Court of Missouri case Dennis E. Hess VS. Chase Manhattan Bank (attached), I wondered what light you may shed on the EPA's possible action to a new owner of the property and the associated costs for additional clean up. Please provide an answer back to this question. I also would like to know if the lake to the south of the property owned by Central Platte Holdings is contaminated. There is an urgent nature to this request as I'd like to make an informed buying decision about the property. Thank you for your time and help.	9/15/2014

EPA-R6-2014-009892	Mr. David Bronson	ENVIRON International Corp.	Per the USEPA Envirofacts/ECHO online database, M7 Aerospace (EPA Registry Id 110015666386) located at 10823 Northeast Entrance Road, San Antonio, TX 78216-6001 has been in RCRA Facility-Level Status violation since at least July 2009. The facility RCRA generator ID is TXD039045968. This alleged violation appears to stem from a April 9, 2001 RCRA inspection at the facility during the previous operator's occupancy (Fairchild Aircraft Inc./Fairchild Dornier Corporation). The 2001 inspection resulted in numerous violations that were reportedly resolved in a CAFO (RCRA-06-2003-0901) which was signed, certified, and dated April 6, 2004. Per the CAFO, a penalty in the amount \$0 was assessed because Fairchild Aircraft Inc./Fairchild Dornier Corporation was in bankruptcy at the time. I am requesting any information or documentation regarding this alleged on-going violation.	8/28/2014

EPA-R10-2014-005315	Matt Landon	Knoxville Independent Media	I, Matt Landon, am requesting information which is contained in EPA's CWA Section 311 database. By providing this information EPA will likely contribute to a greater public understanding of how EPA regulates sites contained in its Section 311 database. The information that EPA releases will be used to educate the public via a blog, an email listserve, and via YouTube videos. This information will contribute significantly to the public knowledge of EPA's regulatory operations since the public doesn't currently have access to this database and it will help the public understand the operations of EPA. I, the requester, do not have a commercial interest that will be furthered by this FOIA request. This information will be used for educational purposes only. I am interested in EPA providing this information in compliance with the FOIA guidelines and to educate the public about these facilities. As a representative of Knoxville Independent Media, I am requesting for outreach and education purposes the following data. I am requesting that fees be waived for these requested materials since this information will be used to educate the public and not for personal gain or profit. I am requesting a copy of any and all data which EPA can release from the Clean Water Act Section 311 database. I am requesting information specific to location, types and amounts of chemicals, SPCC plans, and any other information relating to 311 regulated sites which EPA may be able to release to the public. I am requesting information on facilities located in the following areas located in EPA region 10. 1) Washington state-- Clark County, Skamania county, Cowlitz County, Waukegan county, Pacific county, Lewis county, Grays Harbor county. 2) Oregon state-- Multnomah county, Columbia County, Clatsop county, Tillamook county, Washington county, Yamhill county, Clackamas county, Marion county, Polk county, Hood River county, Lincoln county	4/4/2014

[a] The proposed 1,177 kilometre Enbridge company pipeline, called "Northern Gateway," would carry 525,000 barrels per day of diluted bitumen oil from Alberta to a port in Kitimat in northern British Columbia, to be loaded onto tankers and shipped to Asia. (Many environmentalists oppose the project, fearing the tankers could spill oil with disastrous effects.) [b] Kinder Morgan's proposed expansion of its existing TransMountain pipeline into the Port of Metro Vancouver, could increase tanker traffic by more than 1,000 trips annually off the Pacific coast. [c] The proposed Keystone XL oil pipeline from Alberta to Texas (which US President Obama is due to approve or not). EPA-R5-2015-000056	Mrs. Lita Toney		In the mid to late 60's in Lincoln Park they began Urban Renewal. Up until this time there were many streets, roadways and alleys that every week were sprayed with black thick oil on the rocks that were what many of these streets and alleys were at that time. The oil sprayed was to keep the dust down. Once development began to paved the streets and alleys, many which then became vacated alley's and many were closed off and became part of the easement to the parcels of homes affected but were once were gravel and roads made up of rocks. These fast forward are now part of where our sanitary sewer lines run. Can anyone find records as to when these areas received paved road, was any governmental agency involved in first removing the contaminated portions that had been for years and years sprayed in the heavy thick black oil? has any testing be done since then to determine if any of the ground water has been tested? Also, back in the the late 60's ot was a normal process that inpestides were used to spray for mosquitoes. Has any testing for done since then to check for any after effects and whether any birth defects caused from this environmental hazard?	10/2/2014

EPA-R4-2014-005244	Mark Ovard		1. Request for true and correct copy of "glycol.html" page for each of the 3 dates of the alleged violation. I have never been provided a copy of the page glycol.html referenced in the the March 12, 2014 to me from Kimberly L. Bingham nor was aware of its existence until receiving here letter, at which time I used a FTP program to delete the page. That page was not readily viewable on my website software as it was apparently built on outdated Navigator software. However, viewing a page is not necessary to delete a page. Of equal importance, what glycol.html looked like on March 13, 2014 is irrelevant anyway as those are not alleged dates. I am limited as to what response I can give for allegations concerning webpages I never saw. The March 12, 2015 letter from Kimberly L. Bingham, Chief, Pesticides Section, Region 4 of the U.S. Department of Environmental Protection refers to 3 different occasions, and therefore 3 different versions of the page glycol/html: On or before May, 5 2009 (specific date not identified) August 21, 2012 (time not specified) March 4, 2014 (time not specified) Website pages are not permanent as are books. They can be changed at any time by anyone with access to the website. When changed, the previous copy of the page is overwritten and erased. I have no means to see what was on a page I never knew existed or have any way to obtain a copy of what does not currently exist and was erased. This is a specific request for a copy of each of the three alleged "glycol.html" pages for each of those 3 dates as stated in Ms. Bingham's letter. 2. Request for a true and correct copy of the 2009 Inspector's report referenced in Ms. Bingham's letter to me on March 12, 2014 and everything in the inspector's me concerning the case in any manner, his investigation in any manner, including a print out of any electronic communications and electronic records of the case. EPA-R5-2013-009924	Danielle Stickler	Braun Intertec	I'm conducting a Phase I Environmental Site Assessment on a 40-acre property located in Cottage Grove, Minnesota (outlined in red on the attached map). The Property is just south of a property listed on the US Brownfields database (outlined in blue on the attached map). The US Brownfields property is listed as "Tax Forfeited Property 7552 West Point Douglas Road South, Cottage Grove, MN 55016-3175 EPA Registry ID: 110015332166" (paperwork from the web attached). This property is in the ACRES system Information System ID 10712. The 7552 West Point Douglas Road South is vacant land owned by TCF Bank and was a golf course and dome (All Seasons Golf) prior to becoming vacant land. TCF Bank is wondering why 7552 West Point Douglas Road South is listed on the US Brownfields database. They are wondering if this was a mistake and the Tax Forfeited property is actually the adjoining property northwest of 7552 West Point Douglas Road South that is a city park and ride location (see the attached map).	9/12/2013

EPA-HQ-2014-000462	Joseph Donohue		I've been in regular correspondence with the EPA over the last few months. I am a grad student at Western University in London, Ontario, Canada. My research is focused on developing new types of wastewater technology for municipal wastewater streams. My team and I are currently developing a new kind of bioreactor to be able to treat the water. We've had some mild-success so far, but the unit still requires modification to be able to function reliably. In order to validate this technology, I would like to compare experimental results with those from the EPA's National Pollutant Discharge Elimination System (NPDES) data. I'm specifically interested in wastewater effluent discharge from municipal treatment plants. I'd like to request data pertaining to water quality parameters from wastewater treatment plant discharge such as nitrogen levels, phosphorus levels, biological oxygen demand, total suspended solids, pH and any other regulated or emerging regulations (hormone levels, etc). I'd appreciate the most up to date data from as many states as possible. Any help/clarification in this matter will be greatly appreciated. Kind regards, Joseph Donohue	10/23/2013

Â§ 552, I request access to and copies of information regarding the standards for drinking water and who, specifically, performs the testing and regulates the standards. Also, I respectfully request information on the Safe Drinking Water Act (SDWA) and any changes to the act over the past ten years. Who do I contact if I believe the tap water is unsafe or tainted? Would it be possible to speak with a regulator by phone for an interview in the next few weeks? I am obtaining this information for a college project and would benefit greatly if I could have just a few minutes to speak with someone. Thank you for your time and attention. I would like to receive the information in electronic format. I agree to pay reasonable duplication fees for the processing of this request in an amount not to exceed \$20.00. However, please notify me prior to your incurring any expenses in excess of that amount. If my request is denied in whole or part, I ask that you justify all deletions by reference to specific exemptions of the act. I will also expect you to release all segregable portions of otherwise exempt material. I, of course, reserve the right to appeal your decision to withhold any information or to deny a waiver of fees. I look forward to your reply within 20 business days, as the statute requires. Additionally, I am seeking any information regarding the EPA's response efforts to assist Japan with its remediation efforts related to this ongoing situation. In order to help to determine my status for purposes of determining the applicability of any fees, you should know that I am a law student at Stetson University College of Law. This request is made for a scholarly purpose and not for commercial use. Therefore, I am also seeking a fee waiver of any administrative or clerical fees in this request and the subsequent production of information. Disclosure of the requested information to me is in the public interest because it is likely to contribute significantly to public understanding of the operations or activities of the government. Specifically, the requested data and information will assist me with an environmental advocacy course in which I am participating so that I may raise public awareness of this ongoing challenge in Japan and its global impact and effects. I request that the information I seek be provided in electronic format, and I would like to receive it on a personal computer disk. Thank you for your consideration of this request.
